Sen. McManus announces wastewater treatment funding for Elberta

LANSING – The village of Elberta has been awarded more than \$290,000 in Community Development Block Grant funds for public wastewater system improvements, announced Sen. Michelle McManus, R-Lake Leelanau.

“This funding will help Elberta make necessary improvements to their infrastructure,” McManus said. “I am pleased Elberta has received this funding. It will help the village make necessary improvements to their infrastructure that will benefit the entire community.”

The grant money will be used to install new sewer main and replace and upgrade existing sections of the aging wastewater system. The bulk of the system was installed in 1937, with extensions in 1951 and 1973.
